

# Level 3/4/5 Dunnage Airbag

A heavy-duty dunnage bag for cargo securement of goods transported in rail cars.

An AAR Verified, heavy duty, easy to use dunnage bag for securing cargo in lengthwise voids, in rail cars.

As with all Cargo Tuff dunnage bags, we start with a virgin resin and then extrude, weave and laminate our fabric in house before manufacturing the bags under the highest quality standards in our industry.

Each bag is fitted with our standard spring-loaded filling valve which allows for rapid inflation and deflation.

Our complete extensive line of inflation tools is compatible with these bags, making installation easy.

## Technical Specifications

Level	Working Pressure	Burst Pressure	PE Liner Thickness	Fabric Weight	Coating Weight
3	8 PSI	25 PSI	150	160	20
4	10 PSI	30 PSI	150	180	20
5	10 PSI	21 PSI	170	290	25

## Sizes

- 30", 36", 48", 60" widths
- 36", 48", 60", 72", 84", 96", 102", 108", 120" lengths

## Printing

- No Printing. Cargo Tuff Label

## Bag Color

- White

-  Sustainable
-  Recyclable
-  Rail Verified
